

'Let's Learn'

We have been learning about:

w/c 1.4.19

This week the children have been making, painting and decorated their junk models. We have had some fantastic rockets, robots, boats, dragons, castles and lots of other wonderful creations. These are on display in our classroom, please come in and take a look. Some children have thought of some fantastic ideas linked with the environment and pollution. We went litter picking in the playground and have learnt a song called 'Don't drop litter put it in the bin'. Lots of children are bringing books in for us to read which is lovely and we are enjoying reading them every day. **Has anybody got a toy work bench they would like to get rid of and donate to the nursery for our new indoor construction role play?** Nursery had the chance to have a go at archery on Friday which was a fun experience.

Words to learn this week-empty, fat, full, long, small, biggest, moving, quick/ly

Please send in any boxes, tubes, yogurt pots for more junk modelling.

Thank you for all your support

Mrs Whittick and the Nursery Team

Luke has taken Leo home this week.

The award of the week goes Joshua for his improved concentration and involvement in Nursery 😊.
