

'Let's Learn'

We have been learning about:

w/c 10.02.20

We are continuing with our treasured text 'Owl babies' this week and our new sound of the week is 'o'. Attached to this week's lets learn is a sheet we would like parents to fill in about something new your child has learnt to do over half term, this could be doing their own zip, sleeping all night in their own bed, learning to write their name etc. It is vital that parents can contribute towards their child's learning journey. Please bring them back in on the first week back for us to celebrate and share. All the children thoroughly enjoy going to the conservation area and we would like to feed the birds during the winter months. PLEASE can we ask you to provide some bird food. This could be some fat balls, bird seed, peanuts, sunflower hearts. We would be so grateful for any contributions.

IMPORTANT

After half term we want to help your child with their next step of independence. We would like to ask that all parents drop their child off and say goodbye in our outside area and let your child walk up the ramp into nursery by themselves so parents don't come in to the classroom. A member of staff will be on the door to greet everyone and for any important messages you need to tell us.

Thank you for all your support

Mrs Whittick and the Nursery Team

Leo the lion- Oscar has taken Leo home to his house this week.

PE award- Charlie got this award for trying really hard and joining in this week.
