

# 'Let's Learn'

We have been learning about:

w/c 14.1.19

Our treasured text this has been 'Jack frost' which all the children have enjoyed and they now know the story really well. We have been to the conservation area on Tuesday afternoon and Thursday morning to find snow drops that are mentioned in the story and to explore the surroundings. The children all enjoyed finding different sized sticks and having a go at climbing on the logs. PLEASE MAKE SURE YOUR CHILD HAS A PAIR OF WELLIES AT NURSERY TO WEAR IN THE CONSERVATION AREA. Some of our activities this week have been collaging Jack Frost pictures, free painting, weighing objects with the balance scales to investigate heavy and light, drawing pictures of what winter looks like, sorting colours and size, jigsaws and many more.

Next week we are going to be exploring textures and using words to describe items. Please could you send in any wrappers, packaging (such as bubble wrap, cotton wool, sandpaper, corrugated card) you may have at home for us to use. Also if your child would like to bring in any items such as feather, shells, stones they find for our interest table that would be great.

Thank you for all your support

Mrs Whittick and the Nursery Team

**Class award of the week- Ethan and Aria have won the award for settling in well to Leo's Nursery. Well done to both of you.**

**Please join us if you can for reading mornings on Thursdays 8.45-9am.**
