

'Let's Learn'

We have been learning about:

w/c 21.1.19

This week we have been investigating different textures using our hands to feel and touch different objects. Thank you to Finlay who brought us a lovely collection of shells in from home for us to feel. We have been learning new words to describe the items such as woolly, fluffy, spikey, prickly, silky, flat, bumpy, knobbly, bushy. Please have a go at home to use these words too. We have also been reading stories all week about emotions such as scared, angry etc. We have been using the emotion dice to learn new emotions such as shocked, embarrassed, upset and excited. We have had a fun time in the conservation area this week building a camp fire and pretending to make food using the leaves and sticks. Every week we will be sending new words to learn.
good, happy, naughty, sad, bad, hungry, pretty, silly.

Please can we ask that your child does not bring their toys from home to nursery. We would hate for them to go missing and we have a lot of resources in nursery for everyone to play with.

During the cold weather is it so important your child has a suitable warm outdoor coat to wear as we are outside every day in all weather.

Thank you for all your support

Mrs Whittick and the Nursery Team

Class award of the week- Emilia has won the award this week for her fantastic understanding and vocabulary she used when working with textures.
