

WOW! day

On Friday we had a WOW! Day to start our new topic 'Reign Over Us'. We all dressed up as a monarch who has reigned at any time from 1066 to the present day.

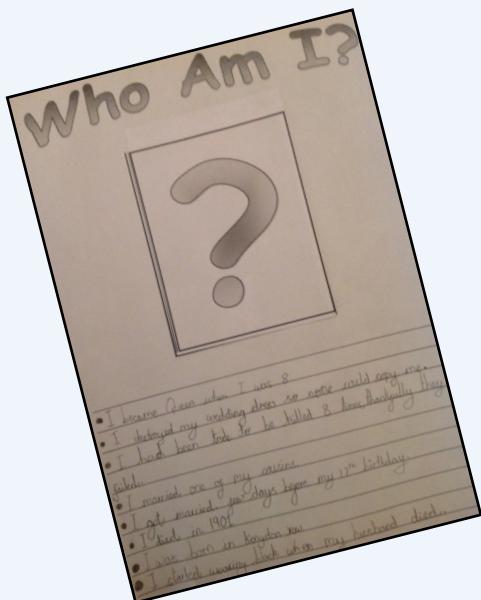

We started the day using our maths skills to order the dates when these monarchs reigned on a timeline.

We used subtraction to calculate how long each of the monarchs reigned for and we then made this information into a bar chart.

We found out that most monarchs reigned for 20–25 years but our own monarch, Queen Elizabeth II is the longest reigning monarch.

She has reigned for 67 years!

We organised ourselves into chronological order and made a human timeline. We also listened to and had a go at singing The National Anthem—God Save The Queen. Mr Deaville taught us some of the rules that must be followed if you are ever lucky enough to meet the queen. In the afternoon we wrote clues about our monarch so people can try to work out who we are dressed up as.
