

Year 4 Roman Wow Day

13th September 2021

To launch our topic 'How can we change the world by looking at the past?' we had a Roman day!

We learnt about Roman chariots - how they were used, what materials they were made of and then we created our own.

We worked in teams to create Roman togas.

We looked at Roman numerals and created a clock.

We measured and made Roman sandals.

We discovered what a Roman diet was like and created our own Roman banquet.
