

'Let's Learn'

We have been learning about:

w/c 12.10.20

We are continuing our learning around Space and each child has made a shape collage learning shapes and colours. We have played lots of listening games this half term and we are starting to learn and understand rhyming words. This week the children have been using duplo, magnetico, stickle bricks and foam blocks to construct with. We are working hard to teach your child important skills and how to be more independent. Please work on these at home such as putting coats on and off, taking shoes and wellies on and off, making sure all the children wash their hand properly, wiping noses correctly etc. At home we would also like to you to go an autumn walk and collect 10 conkers, acorns or stones to use for counting at home.

Harvest Donations

**PLEASE TRY AND DONATE AS
EVERY LITTLE COUNTS**

Every year we ask our parents and children to donate none perishable food goods (tins and packets etc) to the House of bread Charity. Please send any donations in with your child next week.

Child of the week

Oscar W is our child of the week. We are looking forward to receiving an email from Oscar's parents about something he would like to share with the group next week.

Thank you for all your support

Mrs Whittick and the Nursery Team
