

Year 1 Recovery Curriculum

Monday 11th March

- I can investigate the tools we use to build and create something.
- I know that there is a connection between the things I do and how I am feeling.
- I understand that positive relationships help our mental wellbeing.
- I can create something using my imagination and a plan.
- I can explain why I have chosen to create something and how I have done it.
- I can link what I read and hear to my own experiences.
- I can write a description of my special place.

Today, we looked at the second page of our book. We thought about the different tools people use to build something. We were confused about the pig and wondered why it might be there!

Eleanor suggested it could be a torch.

Arlo suggested it could be a toy.

Mikey suggested they could be using the tools on the pig.

We then thought about what we could build if we wanted to and made a plan for it. Tomorrow we will try to create our ideas with our friends!

We are making our time capsule with lots of interesting items! We will open it at our end of year party!

Monday 15 March

- I can talk about changes in living memory.
- I can reflect on my own experiences of the COVID-19 pandemic and on the experiences of my friends and family.

My Time Capsule 2021
